Electronic Awarding of Procurements (title amend. - SG 86/18, in force from 01.11.2019)

Rules for Exchange of Information

Art. 39. ((*), amendment on entry into force - SG 63/17, in force from 30.06.2017, revoked - SG 86/18, in force from 18.10.2018)

Awarding via an electronic platform

Art. 39a. (new- SG 86/18) (1) (in force from 01.11.2019) Awarding of public procurements, including through a dynamic purchasing system, a framework agreement and a qualification system is implemented by electronic means using a centralized electronic platform.

(2) The platform under par. 1 provides at least the possibility of:

1. (in force from 01.11.2019) preparation and publication of decisions, notices and public procurement documents;
2. (in force from 01.11.2019) preparing and receiving inquiries and providing clarifications;
3. (in force from 01.11.2019) preparing and sending invitations;
4. (in force from 01.11.2019) preparation and submission of applications and offers;
5. (in force from 01.11.2019) evaluation of bids offers;
6. (in force from 01.11.2019) signing a contract;
7. (in force from 01.11.2019) submission of applications under contracts;
8. (in force from 01.11.2019) acceptance and processing of electronic invoices;
9. (in force from 01.11.2019) connection to electronic payment systems;
10. (in force from 01.11.2019) preparation and publication of the documents under Art. 36, para. 1, item 5;
11. (in force from 01.11.2019) exchange of other information and documents;

(3) (in force from 01.01.2021) Central purchasing authorities may use electronic procurement platforms other than the platform referred to in para. 1, provided that it technical compatibility and connectivity with it is ensured and the platforms used by these authorities provide the capabilities of para. 2, items 1-9 and 11. Central purchasing authorities are obliged to fulfill the requirements under Art. 35 and 36, before publishing relevant information on their platforms.

(4) (in force from 01.11.2019) The platform under para. 1 shall be publicly available and interoperable with the most widely used market products of information and communication technologies for general use. In every case of transmission, exchange and storage of information, the platform guarantees the integrity of the data and the confidentiality of the documents for participation in the procedure until their opening and review, which is after expiry of the deadline for their receipt.

(5) (in force from 01.11.2019) Contracting authorities do not use the platform under para. 1 for the preparation and exchange of documents containing classified information, with the exception of the decisions under Art. 22, para. 1, items 1, 2, 4, 5, 6 and 8 and the notices under Art. 156. In these cases, the exchange of information shall be carried out in compliance with the requirements of the Protection of Classified Information Act.

(6) (in force from 01.11.2019) Exceptionally, contracting entities may not require the use of the platform under para. 1 when preparing and / or submitting offers, where the specific nature of the procurement requires the use of specific tools and devices, or file formats supported by applications that are not publicly available and can not be provided to the Contracting authority for downloading or remote use, including when included in a copyright protection licensing scheme. In the documentation, the contracting authorities shall indicate the manner in which offers will be prepared and/or presented and shall state the written reasons which shall be published in the public procurement file.

(7) (in force from 01.11.2019) The platform under par. 1 shall not be used to present samples or models that can not be transmitted by electronic means.

(8) (in force from 01.11.2019) In the cases under para. 6 and 7, when the platform under para. 1 is not used, the exchange of information is carried out by postal or other appropriate courier service or a

combination thereof and electronic means.

(9) (in force from 01.11.2019) In procurements for public works and in the competition for project, the contracting authorities may require in the preparation of offers or projects the use of special tools for electronic modeling of information, which are not publicly available. In such cases, contracting authorities shall provide appropriate means of access to those tools.

(10) (in force from 01.11.2019) The access tools proposed by the contracting authorities under para. 9 are appropriate when:

1. provide unlimited and full direct free electronic access to these tools from the date of publication of the notice or from the date of dispatch of the call for confirmation of interest, where the notice or call specifies the Internet address at which these tools are available;

2. to persons who do not have access to the relevant tools or who are unable to obtain them within the relevant deadlines for reasons beyond their control, shall be granted free online access to the public procurement by generating one-time access codes.

(11) (in force from 01.11.2019) When found unplanned interruption of the functioning of the platform under para. 1 on the day, on which a term for the award of a public procurement expires, that term shall be extended. The procedure for ascertainment the interruption and for the extension of the term is specified in the regulation for implementation of the Act.

PREPARATION OF THE PROCEDURE

Section I.

Preliminary Actions

Market Consultations and External Participation in Preparation of Documentation

Art. 44. (1) In preparation of awarding a public procurement, the contracting authority may conduct market consultations, by searching advice from independent experts or bodies, or market players.

(2) Consultations under Para. 1 may be used under the condition that they do not lead to violation of competition and of the principles of non-discrimination and transparency.

(3) The contracting authority shall undertake actions, which may guaranty, that the persons, having participated in the market consultations and/or in the preparation of the procedure have no advantage before the other applicants or participants. These actions shall include at least the following:

1. publishing in the buyer's profile the whole information, exchanged in relation to the preparation for awarding the public procurement, including the received by the contracting authority result and if this is impossible – indication through the buyer's profile the place, where this information may be received;

2. determination of an appropriate term for receiving offers, including by estimating whether shortening of terms leads to breaches of the equality principle.

(4) The contracting authority shall be obliged to extend the term for receiving applications for participation or offers at least to the minimal terms for the relevant type of procedure in case that shortening of terms has been used and in the set term only one offer or application for participation has been received, which are produced by a person participated in the market consultation and/or in the preparation of the participation documentation.

(5) In case that with carrying out actions under Para. 3 or 4, observation of the equality principle cannot be provided, the applicant or participant, having participated in the market consultations and/or in the preparation for awarding the procurement shall be removed from the procedure, if it cannot be proved that his participation does not lead to breaching this principle.

Requirements in Defining the Terms for Receiving Offers and Applications for Participation

Art. 45. (1) In defining the terms for receiving applications for participation and offers, the contracting authorities shall consider the complexity of the procurement and the time, needed for preparing the offers, without referring to the minimal terms for the relevant procedures, defined by this act.

(2) Where the offers may be drawn up only after visiting the site or after check on site of additional documents, related to the public procurement, the terms for receiving offers must be longer than the minimal ones, by giving opportunity to the interested person to get to know the whole information, needed for preparation of the offers.

(3) (new - SG 86/18, in force from 01.11.2019) Where the submission of offers or parts thereof by electronic means is not possible due to any of the reasons under Art. 39a, para. 6 or 7, the term for receipt of offers shall be extended by 5 days.

Separate Positions

Art. 46. (1) In preparation for awarding a public procurement, the contracting authority shall estimate the possibility of its division into separate positions. When he decides that it is not appropriate to separate the public procurement into separate positions, in the decision for opening the procedure, the contracting authority shall indicate the reasons for this.

(2) Where the contracting authorities award public procurements with separate positions, they shall obligatorily define the subject and the volume of each position, and where applicable – the prognosis value as well.

(3) The Council of Ministers may define areas in which the public procurements shall be obligatorily divided in separate positions according to the specialized sectors of activity of the SMEs and their capacity possibilities.

(4) The contracting authorities shall indicate in the notice, with which they announce opening of the procedure or in the invitation for confirmation of interest whether the offers may be submitted for one, for several or for all the separate positions.

(5) Where the contracting authorities have indicated that offers may be submitted for several or for all separate positions, they shall have the right to restrict the number of the separate positions, which are awarded to one contractor. This number shall be indicated in the notice, which announces the opening of the procedure, or in the invitation for confirming interest.

(6) In the cases under Para. 5, the contracting authorities shall indicate in the notice, which announces the opening of the procurement procedure, in the invitation for confirmation of interest or in the public procurement documentation objective and non-discriminating criteria or rules, which they will apply, where a participant has won a larger number of the maximum admissible ones of separate positions.

Special Conditions for Implementation of Procurements

Art. 47. (1) The contracting authorities may include in the requirements for implementation of the procurement special conditions, related economic or social aspects of the implementation, innovations, environment protection or of employment.

(2) The conditions under Para. 1 must be related to the procurement subject and be indicated in the notice, which announces the opening of the procedure, or in the public procurement documentation.

(3) The contracting authority shall require from the participants to declare that their offers have been prepared while observing the obligations, related to taxes and securities, environment protection, employment protection and conditions at labour, which are in force in the country, or in the state where the public works is to be performed or the services to be provided and which are applicable to the public works or the provided services.

(4) In the cases under Para. 3, the contracting authority shall indicate in the notice, which announces opening of the procedure or the public procurement documentation the bodies, from which the applicants or participants may receive the needed information for the applicable rules and requirements.

(5) (new - SG 86/18, in force from 01.03.2019) When awarding a public procurement for the supply of road vehicles of categories M1, M2, M3, N1, N2 and N3 as defined in Art. 149, para. 1 of the Road Traffic Act, contracting authorities are obliged to take into account the energy and environmental impacts throughout the life cycle of vehicles, which shall include at least the requirements for:

1. energy consumption, and
2. Carbon dioxide (CO₂) emissions; and
3. nitrogen oxides (NO_x), non-methane hydrocarbons (NMHC) and particulate matter.

(6) (new - SG 86/18, in force from 01.03.2019) Contracting authorities shall apply the requirements of para. 5:

1. by designating as technical specifications in the procurement documentation, or
2. as indicators in the award criterion under Art. 70, para. 2, item 2 or 3;

(7) (new - SG 86/18, in force from 01.03.2019) Contracting authorities may not apply the requirements of para. 5 when awarding public procurement for the supply of vehicles, which are not subject to mandatory approval of the type or individual approval under an ordinance of the Minister of Transport, Information Technology and Communications, issued on the grounds of Art. 138, para. 4 of the Road Traffic Act.

Section II.

Technical Specifications. Marking. Protocols from Testing

Determining the Technical Specifications

Art. 48. (1) (amend. - SG 86/18, in force from 01.03.2019) The contracting authority shall determine the technical specifications in accordance with the requirements of applicable regulations in the relevant field, by applying one of the following methods:

1. by indicating the work characteristics or the functional requirements, including the ecological, which allow exact determining of the parameters of the procurement subject,
2. through indication in the following order of:
 - a) Bulgarian standards, which introduce European standards;
 - b) European technical assessments;
 - c) general technical specifications;
 - d) international standards;
 - e) other standardization documents, established by the European bodies if standardization or where there are not such – through Bulgarian standards, Bulgarian technical approvals or Bulgarian

technical specifications, referring to design, the method of calculation and fulfillment of public works, as well as to use of goods;

3. through determining work characteristics or functional requirements through indication of specifications under p. 2, whose reference shall be accepted for achieving compliance with the requirements for the work characteristics or functional requirements;

4. through specifications under p. 2 for part of the characteristics, and for others – by indication of the work characteristics, or functional requirements under p. 1.

(2) (amend. - SG 86/18, in force from 01.03.2019) Every indication of a standard, specification, technical assessment or technical approval under Para. 1. p. 2 must be added by the words "or equivalent".

(3) The contracting authority may set additional requirements, which are related to the subject of the procurement and are proportional to its value and purposes. They may refer to a specific process or method of production or provision of public works, supplies or services or to a specific process at another stage of their life cycle.

(4) If needed, in the technical specifications, the contracting authority shall indicate the requirement for transfer of the right over intellectual property.

(5) Where the result of the procurement will be used by natural persons, the technical specifications, which define the characteristics of the procurement subject, must be considered with the criteria for access for disabled people or to provide possibilities for disabled people to use this result.

(6) Where by an EU act obligatory requirements, related criteria for access to disabled people, or conditions for use of such people have been determined, the technical specifications shall include reference to these requirements.

(7) (New – SG 17/19) Where the object of the contract is the development, design and use of services and products which are based on the processing of personal data or process personal data, and where the processing of personal data falls within the material scope of Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of individuals with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation) (OJ, L 119/1 of 4 May 2016), the technical specifications defining the characteristics of the subject-matter of the contract must comply with the rules on the protection of personal data under Art. 25 of that Regulation.

Specific Conditions in Determining Technical Specifications

Art. 49. (1) The technical specifications must provide equal access of the applicants or participants to the procedure for awarding the public procurement and not create unreasonable obstacles before awarding the public procurement in conditions of competition.

(2) The technical specifications shall not contain a concrete model, source or specific process, which characterizes the products or services, offered by a concrete potential contractor, not a trade mark, patent, type or concrete origin or production, which would lead to advantage or elimination of certain persons or products. Upon exception, where it is impossible the procurements product to be described exactly enough and in an understandable way under Art. 48, Para. 1, it is admitted similar indication, where the words "or equivalent" shall be added.

Restriction for Removal

Art. 50. (1) Where the technical specifications are determined under Art. 48, Para. 1, p. 2, the contracting authority shall not be able to remove the offer on grounds that the proposed public works, supplies or services do not comply to the indicated standard, specification, technical assessment or technical approval, if the participant proves in his offer with suitable means, including through the evidences under Art. 52 that the proposed solutions satisfy in equivalent way the requirements, determined by the technical specifications.

(2) If technical specifications have been determined under Art. 48, Para. 1, p. 1, the contracting authority shall not be able to remove the offer for public works, supplies or services, which comply with Bulgarian standard, introducing European standard, European technical assessment, general technical specification, international standard or standardized document, established by a European body of standardization, if the participant proves in his offer with suitable means including through the evidences under Art. 52, that these standardization documents refer to the requirements, determined by the contracting authority for work characteristics and functional requirements.

Marking

Art. 51. (1) Where the subject of the procurement includes concrete ecological, social or other characteristics, in the technical specifications the assessment indicators or conditions for fulfillment of the procurement the contracting authorities may require certain markings, which prove that the fulfillment will comply with the required characteristics. In these cases the marking shall:

1. refer to the procurement subject and be suitable for defining its characteristics;
2. be based on objectively checked and non-discrimination requirements;
3. be established according to an open and transparent procedure, in which all interested parties have had the right to participate;
4. be accessible for use of all potential applicants and participants;
5. be determined by an organization, which is independent from the potential applicants and participants in the public procurement procedure.

(2) Where the contracting authority does not require the procurement subject to meet all the requirements for marking, he shall define which are the applicable requirements for marking.

(3) The contracting authorities shall be obliged to accept all equivalent markings, which confirm that the offered public works, supply or service meets the set requirements for marking.

(4) The contracting authorities shall accept also any other suitable evidences for compliance, under the condition that the participant proves that the offered public works, supply or service meet the requirements of the concrete marking or to the concrete requirements, indicated by the contracting authority.

(5) The contracting authorities shall not require a certain marking, where it meets the conditions under Para. 1, p. 2 – 5, but includes also other, which are not related to the procurement subject. In these cases they shall define the technical specifications, by indicating only this part of the indicators of the marking, which are related to the procurement subject and are suitable for defining the characteristics of its subject.

Protocols of Testing, Certification and other Evidences

Art. 52. (1) The contracting authorities may require from the participants and the applicants to produce a protocol of testing by a body for assessment of the compliance or certificate, issued by such a body, as an evidence for compliance with the requirements or criteria, related to the procurement fulfillment.

(2) Where the contracting authorities require provision of certificated, drawn up by a concrete body for compliance assessment, they shall also accept certificate form other equivalent bodies.

(3) The contracting authorities shall accept other suitable evidences for compliance with requirements or the criteria, related to fulfillment of the procurement, where the participant upon reasons, not depending on him has not possibility to provide the certificates or protocols of testing under Para. 1 and 2 or has not possibility to receive them within the set terms and under the condition, that the participant proves that a public works, supplies and services meet the requirements or criteria, related to the procurement fulfillment.

(4) The competent bodies, which have the right to issue documents under Para. 1 and 2 shall produce upon request by persons also from other Member States information, within the frames of their competence, unless a legislative act contains prohibition for provision of such information.

(5) The contracting authorities may require samples, description and/or pictures of the goods,

which will be supplied and whose compliance with the goods must be proved upon request by the contracting authority.

Variants

Art. 53. (1) The contracting authorities may permit or require production of variants in the offer. In these cases they shall indicate this information in the notice, which announces the opening of the procedure or in the invitation for confirmation of interest.

(2) The variants must be related to the procurement subject.

(3) In the cases under Para. 1, the contracting authorities shall indicate in the public procurement documentation the minimum requirements which the variants must meet, as well as all concrete requirements for their production.

(4) For consideration shall be accepted only variants, which meet the envisaged by the contracting authorities minimal requirements.

(5) The chosen criteria for awarding and the indicators for assessment of the offers shall be able to be applied in one and the same way to the offers, which contain variants, meeting the minimum requirements, also, to the offers, which do not contain such variants.

(6) In procedures for awarding public procurements for supplies or services, the contracting authorities, which have permitted or required production of variants, shall not be able to reject a variant only on grounds that its selection would lead to signing a service contract instead of supply contract or vice versa – of a supply contract, instead of service contract.

Chapter seven.

Chapter eight.

CRITERIA FOR AWARDING THE PROCUREMENTS

Types of Awarding Criteria

Art. 70. (1) The public procurements shall be awarded on the basis of the economically most advantageous offer.

(2) The economically most advantageous offer shall be defined on the basis of one of the following awarding criteria:

1. the lowest price;
2. cost level while accounting the cost effectiveness, including the costs for the whole life cycle;

3. optimal correlation quality/price, which shall be evaluated on the basis of the price or the level of costs, as well as of indicators, including quality, ecological and/or social aspects, related to the subject of the public procurement.

(3) The selected awarding criteria under Para. 2 shall be indicated in the notice, which announces the opening of the procedure or the invitation for confirmation of interests and in the public procurement documentation.

(4) The indicators, included in the criteria under Para. 2, p. 3 may contain:

1. measure of quality, including technical parameters, aesthetic and functional characteristics, accessibility, intended for all consumers, social, ecological and innovation characteristics and innovation trade techniques and conditions;

2. organization and professional competence of the staff, which is assigned to fulfill the procurements, where the capacity of the staff, engaged to fulfill the procurement may substantially influence the fulfillment of the procurement, or

3. service and maintenance, technical assistance and conditions like: fulfillment data, way and term of fulfillment and deadline for finalization.

(5) The indicators, included in the criteria under Para. 2, p. 2 and 3 must be connected to the procurement subject. They may contain factors, which refer to every stage of the life cycle of public works, supplies, or services, notwithstanding of the fact that these factors do not refer to the characteristics, indicated in the technical specifications. They must not give unlimited freedom of selection and must guaranty real competition.

(6) Where the awarding criteria includes more than one indicator, the awarding authority shall define in the notice or invitation for confirmation of interest and in the public procurement documentation the reference weight of all the indicators and where this is objectively impossible, he shall list them according to the importance in a descending order. The awarding authority may define the minimum and maximum admissible values of the quantity indicators.

(7) In the documentation the awarding authority shall indicate the methods for complex evaluation and the way of defining the evaluation of every indicator, The way must:

1. give possibility to be assessed the level of fulfillment, proposed in every offer, in compliance with the public procurement subject and the technical specifications;

2. give opportunity the technical proposals in the offers to be compared and evaluated objectively;

3. provide for the applicant s and participants sufficient information about the rules, which will be applied in defining the evaluation in every indicator, where:

- a) for the quantity defining indicators, values in digits or percentages shall be defined and the way of their calculation shall be indicated;

- b) for the quality indicators, which are quantitatively indefinable, the way for their evaluation shall be indicated by the commission with a concrete value through an expert evaluation.

(8) In the duly defined cases the payable price or the costs may be fixed. In these cases the evaluation shall be based only on the indications, related to measurement of quality.

(9) In a public procurement with a subject design and fulfillment of public works, the evaluation indicators must include characteristics, referable to each of the two activities.

(10) Inclusion of evaluation indicators shall not be included, which account the time for making the payments (delayed or extended payment) or evaluation of the size or refusal of advance payment, where provision of advance payment is envisaged.

(11) Where the prices of the goods or services – subject to the public procurement are subject to regulation, the applicants or participants may propose different prices only where this does not violate

the policy of regulation of these prices.

(12) The contracting authorities shall not have the right to include selection criteria as indicators for evaluation of the offers.

Evaluation of Costs for the Whole Life Cycle

Art. 71. (1) The costs for the whole life cycle shall include a price for acquiring one or more of the indicated costs, as follows:

1. costs, which are paid by the contracting authority or other users, like:

a) costs for use, like energy consumption and other resources;

b) maintenance costs;

c) costs at the end of the exploitation period like costs for collection and recycling;

2. costs, related to ecological factors in relation to the product, service or public works during their whole life cycle, under the condition that their value may be defined and checked; these costs may be related to emissions of greenhouse gasses and other harmful emissions or to mitigation of the climate changes.

(2) Where the contracting authorities envisage evaluation of the costs for the whole life cycle, they shall indicate in the public procurement documentation the data, which must be produced by the participant and the way of defining the evaluation.

(3) Where costs are evaluated, related to ecological factors, the way for defining their evaluation must meet the following conditions:

1. it must be based on non-discrimination criteria and give opportunity for objective check; where the way is developed for the concrete procurement, it shall not give unreasonable advantage to certain persons and other put in a disadvantage position;

2. it must be accessible for all interested persons;

3. the required data by the contracting authority should be able to be produced on behalf of the participants while laying reasonable efforts, including where they are from third countries, which are parties to the Agreement on Government Procurement (AGP) at the World Trade Organization, or are party to other international agreements, to which the EU is bound.

(4) Where a certain method for calculation of certain costs for the whole life cycle is obligatory under an EU legislation act, the contracting authorities shall be obliged to use this method.

(5) (amend. - SG 86/18, in force from 01.03.2019) In the cases under the Art. 47, para. 6, item 2 when energy and environmental impacts are presented in monetary terms, for calculation of certain costs for the whole life cycle of the vehicles, the contracting authorities shall apply methods, defined by an Ordinance of the Minister of Transport, IT and Communications.

Unusually Favorable Offers

Art. 72. (1) Where a proposal in an offer of a participant, related to price or costs, which is subject to evaluation, is by more than 20% more favorable than the average value of the offers of the other participants in the same evaluation indicator, the contracting authority shall require a detailed written justification about the way of its formation, which is produced within 5 day term from receiving the request.

(2) The justification under Para. 1 may refer to:

1. the economic peculiarities of the production process of the provided services or the public works method;

2. the chosen technical decision or presence of extremely favorable conditions for the participant for provision of products or services or for fulfillment of public works;

3. original offered decision of the participant in relation to public works, supplies or services;

4. observation of the obligations under Art. 115;

5. the possibility for the participant to receive state aid.

(3) The received justification shall be evaluated in relation to its completeness and subjectivity concerning the circumstances under Para. 2, to which the participant refers. If needed, from the participant may be required clarifying information. The justification may not be accepted and the participant be removed only where the produced evidences are not sufficient to justify the offered price or costs.

(4) An offer shall not be accepted, where it is found that the proposed price in it or costs are more than 20% more favorable than the average values of the relevant offers in the other offers, because norms and rules have not been observed, related to environment protection, social and labour law, applicable collective agreements and/or provision of the international ecological, social and labour law, which are listed in Annex No 10.

(5) An offer shall not be accepted, where it is found that the offered in it price or costs are more than 20% more favorable than the average value of the relevant proposals in the other offers because of received state aid, where the participant cannot prove in the envisaged term that the aid is compatible with the internal market in the meaning of Art. 107 of TFEU.

(6) (new - SG 86/18, in force from 01.03.2019) In procedures that contain a negotiation phase and several participants are invited, as well as when conducting an electronic auction, the contracting authority applies para. 1-5, where it finds that the proposal of one of the participants, achieved as a result of the negotiations or after the completion of the electronic tender is more than 20% more favorable than the average of the proposals of the other participants under the same rating indicator.

(7) (prev. para. 6, suppl. - SG 86/18, in force from 01.03.2019) The contracting authorities shall be obliged to notify the European Commission about all cases under Para. 5, found in procedures under Art. 18, para. 1, items 1 - 11.

(8) (prev. para. 7 - SG 86/18, in force from 01.03.2019) All bodies shall be obliged upon request and within the frames of its competence to produce to the contracting authorities – including from other Member States – information, related to law and legislative provisions, applicable collective agreements or national technical standards, referring to evidences and documents, produced in relation to the data under Para. 2.

d) the new procurement complies with the basic project, in whose fulfillment the initial procurement has been awarded.

(2) The contracting authority may apply Para. 1, p. 3, letters "b" and "c" only where there is not sufficiently good alternative or replacement and lack of competition is not due to artificial shortening of the procurement parameters.

(3) The continuity of the procurement contracts under Para. 1, p. 6, including in periodically repeated contracts for such procurements, shall not exceed 3 years.

(4) In the cases under Para. 1, p. 7, the contract shall be signed upon the rules of the relevant stock exchange.

(5) The repeated awarding of public works or the services under Para. 1, p. 10 may be applied not later than 3 years after signing the initial contract.

(6) With the decision for opening the procedure, the contracting authority shall motivate the applicable ground under Para. 1.

(7) The terms and procedure for conducting the procedure shall be defined by the rules on the implementation of the act.

Competition for a Project

Art. 80. (1) (amend. - SG 86/18, in force from 01.03.2019) The competition for a project shall be conducted on its own or as a part of a procedure for awarding a public procurement for a service.

(2) (amend. - SG 86/18, in force from 01.03.2019) When the competition for a project is conducted on its own the estimated value is determined by including the total amount of awards and payments.

(3) (amend. - SG 86/18, in force from 01.03.2019) Where the competition for a project precedes a procedure for the award of a public procurement for service any awards or payments to participants are included in the estimated value as well as the value without VAT of the public procurement for services, which may be awarded through a negotiation procedure, without preliminary notice.

(4) The participation in a competition for a project shall not be restricted:

1. through indication of national sign or territorial scope;

2. through requirement for a certain legal-organization form of the participant.

(5) In an open competition, all interested persons may produce projects.

(6) Where the competition for a project is conducted with a restricted number of participants, the contracting authority shall define clear and non-discrimination criteria for decreasing the number of applicants. In this case projects may submit only applicants, who have been invited by the contracting authority. The number of the invited applicants must be sufficient, so that real competition is guaranteed.

(7) The competition shall be conducted by jury, which shall be independent in decision taking or expressing opinions. In relation to the jury members, there should not be a conflict of interest with the applicants or participants.

(8) The conditions and procedure for conducting a competition for a project shall be determined

by the rules on implementation of the act.

(1) In a restricted procedure, competitive procedure with negotiation, competitive dialogue and partnership for innovation, the contracting authorities may decrease the number of the applicants, meeting the selection criteria, who will be invited for presentation of offers or for conducting dialogue.

(2) In the notice, which opens the procedure, the contracting authorities shall indicate the objective and non-discriminatory criteria or rules, which will be applied for decreasing the number of the applicants and the minimal number of applicants, who intend to invite. The contracting authorities may also indicate a maximum number of applicants, who they intend to invite.

(3) In a restricted procedure, the minimal number of applicants shall be 5, and in a competitive procedure with negotiation, competitive dialogue and partnership for innovations – 3. The number of the invited applicants must be sufficient, in order to be guaranteed a real competition.

(4) Where the number of applicants, who meet the requirements, indicated in the notice, which announces opening of the procedure, exceeds the announced maximum number of the persons, who will be invited to present offers, the contracting authority shall carry out a selection, on the basis of the indicated in the notice objective and non0discriminatory criteria.

(5) In case that the contracting authority has indicated in the notice a restriction of the applicants number, who will be invited to submit offers, he shall be obliged to invite such a number of applicants which shall be at least equal to the preliminary determined minimum.

(6) Where the number of the applicants, meeting the selection criteria and the minimal requirement, is under the indicated minimum in the notice, the contracting authority may continue the procedure, by inviting only the applicants, who meet these criteria and requirements.

(7) The contracting authority shall not invite persons to submit offers, who have not submitted a participation application or applicants, who fail to meet the selection criteria and the minimal requirements.

Accepting the Operation of the Commission

Art. 106. (1) The report under Art. 103, Para. 3 shall be produced to the contracting authority for confirmation. The report shall have attached the records of the commission operation.

(2) Where in the run of the operation reasonable grounds occur for agreements, decisions or coordinated practices between the participants in the meaning of Art. 15 of the Protection of Competition Act, this circumstance shall be indicated in the report under Para. 1.

(3) Within 10 day term from receiving the report, the contracting authority shall confirm it or return it to the commission with written instructions, where:

1. the information in it is not sufficient for taking a decision for finalization of the procedure, and/or

2. it finds violation in the commission operation, which may be removed without the need for termination of the procedure.

(4) The instructions under Para. 3 shall not direct to a concrete contractor or to certain conclusions on behalf of the commission, but only they should mention:

1. what information must be included, so that sufficient grounds are present, which define the proposals of the commission in the cases under Para. 3, p. 1;

2. the violation, which must be removed in the cases under Para. 3, p. 2.

(5) The commission shall produce to the contracting authority a new report, which shall contain the results of the review of its actions.

(6) Within 10-day term from confirmation of the report, the contracting authority shall issue a decision for determining a contractor or for termination of the procedure.

(7) In the cases under Para. 2, the contracting authority shall notify the Competition Protection Commission. The notification shall not stop the conducting and finalization of the procedure.

Other Reasons for Removal from Participation

Art. 107. (amend. - SG 86/18, in force from 01.03.2019) Apart from the grounds under Art. 54 and 55, the contracting authority shall remove:

1. an applicant or participant, who fails to meet the set selection criteria or fails to fulfill other condition, indicated in the notice for public procurement, the invitation for confirmation of interest or in an invitation for participation in negotiations, or in the documentation;

2. participant, who has submitted an offer, which does not meet:

a) (suppl. - SG 86/18, in force from 01.03.2019) the preliminary announced condition for performance of the procurement;

b) rules and requirements, related to observation of the environment, the social labour law, applicable collective agreements and/or provision of the international ecological, social and labour law, which are listed in Annex No 10;

3. participant, who fails to produce in term the justification under Art. 72, Apra. 1 or whose offer has not been accepted under Art. 72, Apra. 3 – 5;

4. applicants or participants, who are related persons;

5. (new - SG 86/18, in force from 01.03.2019) applicant or participant who has submitted an application or a offer that does not meet the conditions for submission, including the form, manner and term.

Chapter twelve.

FINALIZATION OF THE PROCEDURE

Final Decision under the Procedure

Art. 108. The procedures under this act shall finish with a decision about:

1. (amend. - SG 86/18, in force from 01.03.2019) determining a contractor upon a public procurement contract, including upon a contract, signed on the basis of DSP or qualification system;

2. determining contractors upon a framework agreement;

3. grading of participants and/pr awarding prices and/or other payments in a competition for a project;

4. termination of the procedure.

Determining Contractor of a Public Procurement

Art. 109. The contracting authority shall determine as contractor of the procurement a

participant, for who the following conditions have been fulfilled:

1. (amend. - SG 86/18, in force from 01.03.2019) there are no grounds for removal from the procedure, apart from the cases under Art. 54, Para. 4 and 5 and meets the selection criteria, and where applicable – the non-discriminatory rules and criteria for decreasing the number of the applicants;

2. the offer of the participant has received the highest evaluation while applying the preliminary announced by the contracting authority conditions and the selected criterion for awarding.

Termination of the Procedure

Art. 110. (1) The contracting authority shall terminate the procedure with a grounded decision, where:

1. no offer, participation application, or competitive project has been submitted, or no participant for negotiations has appeared;

2. all the offers or participation applications do not meet the conditions for presentation, including for form, way and term, or are inappropriate;

3. all the competition projects do not meet the preliminary announced conditions by the contracting authority;

4. the first and second graded participants refuse to sign a contract;

5. violations have been found in its opening and conducting, which cannot be removed, without this changing the conditions, in which the procedure is announced;

6. because failure to fulfill some of the conditions under Art. 112, Para. 1, no public procurement contract shall be signed;

7. all the offers, which meet the preliminary announced conditions by the contracting authority exceed the financial resource, which he may provide;

8. the need for conducting the procedure or for awarding the contract falls as a result of a substantial change in the circumstances or in impossibility to be provided financing for fulfillment of the procurement because of reasons, which the contracting authority could not envisage;

9. substantial changes are needed in the conditions of the announced procurement, which would change the circle of the interested persons.

(2) The contracting authority may terminate the procedure with a grounded decision, where:

1. only one offer, participation application or competition project has been submitted;

2. there is only one appropriate participation application or one suitable offer;

3. there is only one competition project, which meets the preliminary announced conditions by the contracting authority;

4. the participant, graded at the first place:

a) refuses to sign a contract;

b) fails to fulfill some of the conditions under Art. 112, Para. 1, or

c) fails to prove that there are no grounds for removal from the procedure.

(3) In the cases under Para. 1, p. 7 the contracting authority shall obligatorily include in the decision the lowest proposed price and cannot sign a contract with the same subject for a price, equal or larger than the indicated one in the decision, while conducting a further procedure within the frames of the same year.

(4) Where the initially announced procedure has been terminated, the contracting authority may find a new procedure for awarding a public procurement with the same subject only if the decision for termination has been enforced.

(5) The contracting authority may withdraw the enforced decision for selecting a contractor and issue a decision for termination of the procedure, where before signing the contract a circumstance under Para. 1, p. 4, 6 and 8 or Para. 2, p. 4. occurs.

Chapter thirteen.

AWARD OF A PUBLIC PROCUREMENT (TITLE AMEND. - SG 86/18, IN FORCE FROM

01.03.2019)

Section I. Guaranties for Fulfillment

Guaranty for Fulfillment

Art. 111. (1) (amend. - SG 86/18, in force from 01.03.2019) The contracting authority may require from the selected contractor to provide guarantees, which may insure the fulfillment of the contract and/or providing means in advance.

(2) (amend. - SG 86/18, in force from 01.03.2019) The guaranty, insuring the contract fulfillment shall not exceed 5% of its value. In case of reserved procurement, which is awarded to specialized undertakings or cooperation of disabled people, the fulfillment contract guaranty shall not exceed 2% of the contract value. (3) The guaranty, which insures the provided means in advance, may be to the amount of these means and shall be liberated by 3 days after return or absorption of the advance payment.

(4) (amend. and suppl. - SG 86/18, in force from 01.03.2019) The envisaged guaranties and their percentage shall be indicated in the notice, which announces the opening of the procedure, in the confirmation of interest invitation, the invitation for participation in negotiations or in the notice.

(5) The guaranties shall be provided in one of the following forms:

1. amount of money;
2. bank guaranty;
3. insurance, which insures the fulfillment by covering the responsibility of the contractor.

(6) The guaranty under Para. 5, p. 1 or 2 may be provided on behalf of the contractor for the account of a third person – guarantor.

(7) The participant, selected for contractor, shall choose himself the guaranty form for fulfillment or for the provided means in advance.

(8) Where the selected contractor is a partnership, which is not a legal person, each of the partners in it may be an ordering the bank guaranty or depositor of the guaranty sum or holder of the insurance.

(9) The conditions and terms for detention or release of the fulfillment guaranty shall be provided by the public procurement contract.

(10) Where the public procurement contract is fulfilled in stages, the contracting authority shall include in the draft contract a clause for partial release of the guaranties, or of the fulfilled part of the public procurement subject. Where the procurement subject includes guaranty maintenance, the contracting authority shall determine in the draft contract what part of the fulfillment guaranty is intended for insurance of the guaranty maintenance.

Section II.

Public Procurement Contract. Framework agreement. (title amend. - SG 86/18, in force from 01.03.2019)

Signing a Contract

Art. 112. (1) The contracting authority shall sign with the selected contractor a written public procurement contract in the condition that with the signing of the contract, the selected contractor:

1. produces a document for registration in compliance with the requirement of Art. 10, Para. 2;
2. (amend. - SG 86/18, in force from 01.03.2019) submits documents certifying the lack of grounds for removal from the procedure as well as compliance with the selection criteria, including third parties and subcontractors, if any;
3. produces the defined guaranty for fulfillment of the contract;

4. carries out the relevant registration, produces a document or fulfills any other requirement, needed for fulfillment of the procurement according to the requirement of a normative of administrative act and has been set by the contracting authority in the conditions of the announced procurement.

(2) The contracting authority shall not sign a contract, where the participant, graded at the first place:

1. refuses to sign a contract;
2. fails to fulfill some of the conditions under Para. 1, or
3. fails to prove that there are not grounds for removal of the procedure.

(3) In the cases under Para. 2, the contracting authority may amend the enforced decision in the part for selection of a contractor and with a grounded decision selects the second graded participant for contractor.

(4) (amend. - SG 86/18, in force from 01.03.2019) The contract must comply with the draft contract, attached to the documentation, supplemented with all the proposals from the participant's offer on the basis of which the latter has been selected for contractor of the procurement. Amendments in the draft contract shall be admitted upon exception, where the condition of Art. 116, Para. 1, p. 7 has been fulfilled but circumstances have occurred during or after conducting the procedure.

(5) The obligatory minimal contents of the contract shall be set by the Rules on the implementation of the act.

(6) The contracting authority shall sign the contract within one month term after the decision for selection of a contractor has been enforced or of the determination, which admits preliminary fulfillment of this decision, but not before expiry of 14 day term from the notification of the interested applicants and/or interested participant about the decision for selection of a contractor.

(7) The contracting authority may sign a public procurement contract before the expiry of the 14 day-term from the notification of the interested applicants and/or interested participants about the decision for selection of a contractor in the following cases:

1. the contractor has been selected as a result of:
 - a) procedure under Art. 18, Para. 1, p. 8 - 10 and 13 and there is only one invited participant, or
 - b) procedure under Art. 18, Para. 1, p. 8 - 10 and 13, open under Art. 79, Para. 1, p. 4, Art. 138, Para. 1, Art. 164, Para. 1, p. 3 or 4, or Art. 182, Para. 1, p. 1 and already there are invited participants;
2. the selected contractor is the only interested participant and there are no other interested applicants, or
3. the contract is signed on the basis of a framework agreement with one participant.

(8) The contracting authority shall not have the right to sign contract with the selected contractor before the enforcement of all the decisions of the procedure, unless it has been admitted preliminary fulfillment or where the procedure has been opened under Art. 79, Para. 1, P. 4, Art. 138, Para. 1, Art. 164, Para. 1, p. 3 or 4, or Art. 182, Para. 1, p. 1.

(9) (new - SG 86/18, in force from 01.03.2019) In the cases under para. 1 the contracting authority has no right to request documents:

1. which have already been submitted;
2. to which access is available ex officio or in public register;
3. which can be provided through direct and free access to Member States' national databases.

Conclusion of a framework agreement and a contract under a framework agreement

Art. 112a. (new - SG 86/18, in force from 01.03.2019) (1) When a framework agreement is concluded, the conditions of Art. 112, para. 1 shall apply.

(2) The Contracting Authority does not require the documents under Art. 112, para. 1, item 2 upon conclusion of a contract under a framework agreement, which sets out all the conditions.

Term of the Public Procurement Contracts

Art. 113. (1) The public procurement contracts for periodic or long term fulfillment shall be signed for a term, which shall not exceed 5 years.

(2) Upon exception, the contracting authorities may sign contracts with a longer term, where this is imposed because of the nature of the procurement subject, the need of return of the investment or because of a technical reason, where the contracting authority shall indicate the grounds for this fact in the decision for opening.

(3) The term of contracts, signed on the basis of a framework agreement may exceed the deadline of the agreement:

1. by not more than a year – where time is needed for finalization of the fulfillment of the contract subject;

2. by more than a year – where it is connected with the fulfillment of activities, servicing the basic subject, including guaranty service and training of staff.

(4) Signing unlimited public procurement contracts, or contracts, whose term is continued automatically shall not be admitted. Contracts, signed in violation of the rules under Para. 1 and 2 shall be considered as signed for one year.

Contract under Condition

Art. 114. Where in opening of the procedure not financing is ensured, the contracting authority shall indicate this fact in the notice or invitation for confirmation of interest and shall envisage in the draft contract a clause for delayed fulfillment. In this case each of the parties may request termination of the contract without preliminary notification after expiry of a 3 month term from its concluding.

Requirements during Fulfillment of the Contracts

Art. 115. During fulfillment of the public procurement contracts, the contractors and their subcontractors shall be obliged to observe all applicable rules and requirements, related to environment protection, social and labour law, applicable collective agreements and/or provision of the international ecological, social and labour law under Annex No 10.

Electronic invoices

Art. 115a. (new - SG 86/18, in force from 01.11.2019) In the case of payments under public procurement contracts, contracting authorities are obliged to accept and process electronic invoices provided their content meets the requirements of Art. 114, para. 1 of the Value Added Tax Act and invoices comply with the European electronic invoicing standard approved by Commission Implementing Decision (EU) 2017/1870 of 16 October 2017 on the publication of the reference of the European standard on electronic invoicing and the list of its syntaxes pursuant to Directive 2014/55/EU of the European Parliament and of the Council or an equivalent standard with which it is implemented.

Amendment of a Public Procurement Contract and Framework Agreement

Art. 116. (1) (amend. - SG 86/18, in force from 01.03.2019) The public procurement contracts and the framework agreements may be amended where:

1. the amendments are envisaged in the public procurement documentation and in the contract with clear, exact and unambiguous clauses, including clauses for change of the price or options; the scope and the nature of the possible amendments and options, as well as the conditions, in which they may be used shall not lead to change of the procurement subject or of the framework agreement;

2. because of unforeseen circumstances a need occurs of carrying out additional supplies, services or public works, which are not included in the initial public procurement, if the change of the contractor:

a) is impossible because of economic or technical reasons, including requirements for interchangeability or operative compatibility with the existing equipment, services or facilities, awarded with the initial procurement, and

b) would cause substantial difficulties, related to maintenance, exploitation and service or duplication of costs of the contracting authority;

3. because of circumstances, which in laying the due care, the contracting authority could not envisage, a need of change has occurred, which does not lead to a change of the subject of the contract or the framework agreement;

4. (amend. - SG 86/18, in force from 01.03.2019) where the contractor is required to be replaced by a new contractor, if such possibility of substitution is provided in the procurement documentation and in the contract by clear, precise and unambiguous clauses concerning the occurrence of specific conditions;

5. (new - SG 86/18, in force from 01.03.2019) where the contractor is required to be replaced by a new contractor where a universal or partial succession to the original contractor is present where a universal or partial succession to the original contractor is available, including through merger, consolidation, division or spin-off and also change of the legal form where it is in liquidation or in an open insolvency procedure and the following conditions have been fulfilled at the same time:

a) for the new contractor there are not reasons for removal from the procedure and he meets the initially established selection criteria;

b) the change of the contractor does not lead to other substantial amendments of the public procurement contract or of the framework agreement and does not aim at circumvention of the law;

6. (revoked, new - SG 86/18, in force from 01.03.2019) the conditions under items 4 or 5 are present in respect of a participant - association which is not a legal entity;

7. (prev. para. 5 - SG 86/18, in force from 01.03.2019) changes are needed, which are not substantial;

(2) In the cases under Para. 1, p. 2 and 3 if an increase of the price is needed, it shall not exceed more than 50% of the value of the basic contract or framework agreement. Where successive amendments are made, the restriction shall apply to the total value of the amendments. The successive amendments shall not aim at circumvention of the law.

(3) (revoked, new - SG 86/18, in force from 01.03.2019)

(4) (amend. - SG 86/18, in force from 01.03.2019) In the cases under Para. 1, p. 2 and 3 where the public procurement contract contains a clause for indexation or has been signed under certain prices, for a basic value the updated value at the moment of the amendment shall be accepted.

(5) (amend. - SG 86/18, in force from 01.03.2019) Amendment of a public procurement contract shall be considered as substantial in the meaning of Para. 1, p. 7, where one or more of the following conditions are fulfilled:

1. the amendment introduced conditions, which, if they were a part of the procedure for awarding a public procurement, would attract to participation additional participants or applicants, they would allow admittance of other participants or applicants, different from the initially selected ones, or would lead to acceptance of an offer, different from the initially accepted one;

2. the change leads to profit for the contractor, which have not been known to the remaining participants in the procedure;

3. the amendment concerns the subject or volume of the public procurement contract or the framework agreement;

4. (amend. - SG 86/18, in force from 01.03.2019) the contractor is changed by a new one, apart from the cases of Para. 1, p. 4 or 5.

(6) In case of an amendment of a contract, signed by a sector contracting authority, the conditions under Para. 2 shall not apply.

Transferability of Receivables

Art. 117. The money receivables on the public procurement contract and on the subcontracting contracts shall be transferable, may be pledged and on them compulsory fulfillment may be carried out.

Termination of a Public Procurement Contract or a Framework Agreement

Art. 118. (1) The contracting authority shall terminate the public procurement contract or the framework agreement in the cases, envisaged by an act, contract or agreement, or where:

1. a substantial change of the procurement is needed, which does not allow the contract or the framework agreement to be changed under Art. 116, Apra. 1;

2. it is found that during the procedure for awarding the procurement, for the contractor the circumstances under Art. 54, Para. 1, p. 1 have been present, on the basis of which he had to be removed from the procedure;

3. the procurement should not have been awarded to the contractor because of a present violation, ruled by the EU Court of Justice in a procedure under Art. 258 of TFEU.

(2) In the cases under Apra. 1, p. 2 and 3 the contracting authority shall not owe compensation for suffered harms because of termination of the contract or the framework agreement.

Voidable Contracts or Framework Agreements

Art. 119. (1) Contracts or framework agreement shall be voidable where they have been signed:

1. without procedure for awarding public procurement in spite of presence of ground for its conducting or where the procedure has been conducted without observation of the requirement of Art. 99;

2. in unlawful application of the grounds of Art. 13 - 15, Art. 79, Para. 1, Art. 138, Para. 1, Art. 149, Para. 1, Art. 164, Para. 1 or Art. 182, Para. 1;

3. before the enforcement of an act of the contracting authority, issued in relation to the procedure and a violation is found, which has affected the possibility of:

a) the interested person to submit an application for participation or an offer;

b) an interested applicant to submit and offer;

c) an interested applicant or participant to take part in selection of a contractor.

(2) The contracting authority shall terminate a contract, signed on the basis of a framework agreement, which has been made void in a judicial procedure.

Subsidized Application

Art. 120. For all unsettled issues in relation to signing, fulfillment and termination of the public procurement contracts, the provisions of the Commerce Act and the Obligations and Contracts Act shall apply.

Chapter fourteen.

FILE OF THE PUBLIC PROCUREMENT

Documentation and Accountability

Art. 121. (1) (amend. - SG 86/18, in force from 01.03.2019) The contracting authorities shall maintain a file for each public procurement in view to provision of documental traceability (audit path) in relation to all their actions and decisions, as well as of the actions of the commissions for awarding public procurements notwithstanding if the procurements are awarded by electronic media.

(2) The file shall contain all the decisions, notices, documentation and other additional documents, explanations, invitations, records, final reports of the commission, the offers or participation applications, evidences for undertaken actions under Art. 44, Para. 3 – 5, description of the reasons, because of which other means are used for submission of documents, different from the electronic ones in electronic submission, and in the cases of realized preliminary control – also the opinions of the Public Procurement Agency and the grounds for the contracting authority for the unaccepted recommendations. The file shall contain the contract or the framework agreement, as well as all the documents, related to fulfillment and its accounting.

(3) The contracting authorities shall store the information, related to contracts, where they apply the exceptions from the act.

Term of Storage

Art. 122. (1) (new - SG 86/18, in force from 01.11.2019) The electronic documents in the public procurement file shall be stored in the platform under Art. 39a, para. 1 for a period of 5 years

from the year in which the contract was concluded or the award was terminated. Upon expiration of this period, they are archived for a period of 5 years in accordance with the Electronic Government Act.

(2) (prev. para. 1, amend. - SG 86/18, in force from 01.11.2019) Where the contracting authorities keep paper documents as part of the files under Art. 121, para. 1 and / or information under Art. 121, para. 3, the term shall be 5 years from the date of completion of the contract or from the date of termination of the award.

(3) (prev. para. 2, amend. - SG 86/18, in force from 01.11.2019) The terms under para. 2 may be extended in case that this comes for rules for operation of funding, auditing and certification bodies in relation to provision of funds on EU projects and programmes.
